AZT LLC

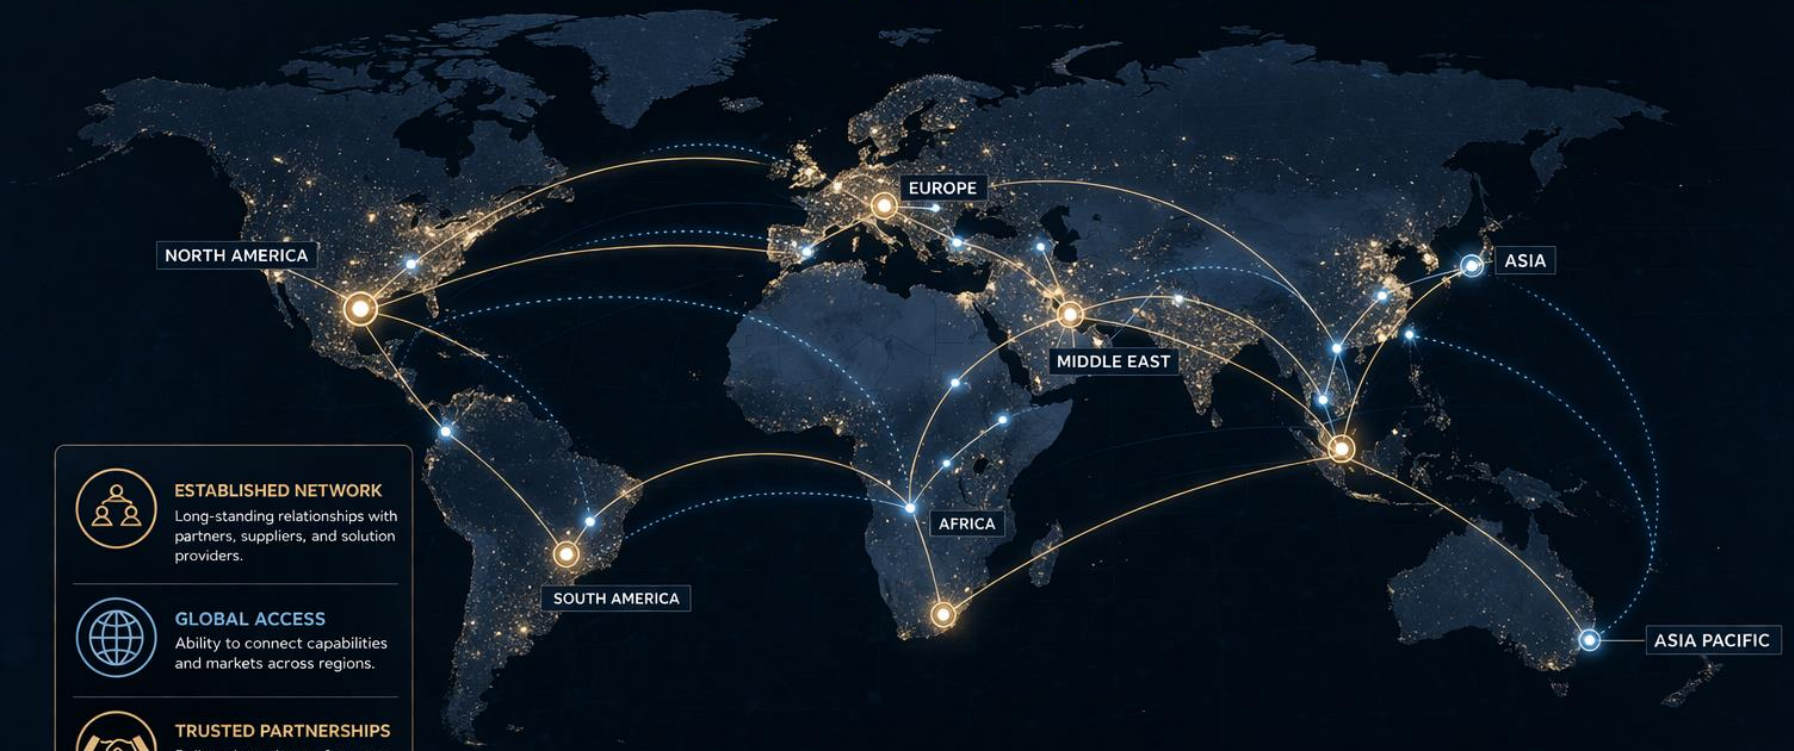
AZ TRADING LLC

Strategic Solutions, Powered by Global Expertise

A GLOBAL NETWORK.
LOCAL ACCESS. REAL IMPACT.

AZT LLC
Strategic Solutions,
Powered by Global Expertise

AZT LLC operates through an established network of partners and trusted relationships across key markets, enabling us to deliver integrated solutions with **speed, insight, and reliability**.



ESTABLISHED NETWORK
Long-standing relationships with partners, suppliers, and solution providers.

GLOBAL ACCESS
Ability to connect capabilities and markets across regions.

TRUSTED PARTNERSHIPS
Built on integrity, performance, and shared success.

A STRONG NETWORK ISN'T BUILT OVERNIGHT. IT'S EARNED.
AZT LLC leverages years of proven relationships to open doors, solve complex challenges, and create lasting value for our clients.

What we do?

- AZT LLC structures and delivers integrated capability programs across aviation, defense, maritime, security, and industrial support environments.
- We act as a single coordination point between global suppliers and institutional, commercial, and humanitarian clients.
- Our model combines strategic structuring, operational execution, and long-term sustainment in one accountable platform.
- Built for complex, regulated, and mission-critical requirements.

The AZT Difference,

"We assemble the entire ecosystem into a working solution."

Unified Aviation Ecosystem

AZT connects aircraft, systems, equipment, and specialist partners, forming a seamless global solution for aviation needs.

Program Integration and Management

AZT manages configuration, compliance, logistics, and delivery, streamlining complex program operations for clients.

Mission-Ready Capability

Comprehensive training and sustainment support ensure lasting performance for mission-ready aviation operations.

The AZT Difference

Capability Providers (OEMs)

- Advanced platforms & technologies
- Product-centric offerings
- Fragmented solutions landscape
- Limited local execution capability
- Weak alignment with operational realities

AZT – Integration & Execution Layer

- Multi-OEM capability integration
- Operational ↔ technical translation
- Program structuring & alignment
- Financing & acquisition support
- Local implementation & deployment
- Lifecycle sustainment & support
- Single point of accountability

Operational Clients (End Users)

- Governments & public entities
- Defense & security operators
- Critical infrastructure & industry
- NGOs & humanitarian missions

Challenges

- Complex mission requirements
- Limited technical integration capacity
- Procurement & execution gaps
- Need for turnkey, accountable delivery

Defense & Security Portfolio

Air Domain Capabilities

This domain includes tactical aircraft, ISR platforms, and mission integration to enhance aerial defense and operations.

Land Domain Strengths

Weapons, armored vehicles, and modernization efforts ensure robust ground force readiness and adaptability.

Maritime Domain Support

Patrol vessels, surveillance, and fleet support provide maritime security and operational effectiveness.

Security & Systems Solutions

This domain offers infrastructure protection, integrated surveillance, and command solutions for critical security needs.

Aviation Solutions & Support

Aircraft Acquisition & Brokerage

We provide expert sourcing, acquisition, and brokerage services for business and special mission aircraft, ensuring tailored solutions for clients.

Leasing, Financing, and Fleet Structuring

Our team facilitates leasing, financing, and structured fleet management to optimize operational efficiency for private and institutional clients.

Mission Configuration & MRO Coordination

We configure aircraft for ISR, medevac, and surveillance missions, providing MRO coordination and full operational deployment support throughout the lifecycle.

Delivering Integrated Capability Where It Matters

Multi-Domain Integration

We unify capabilities across defense, aviation, maritime, and security to create seamless, mission-ready solutions for diverse operations.

End-to-End Program Execution

Our approach ensures complete project delivery from planning to operation, maintaining efficiency and accountability throughout the process.

Lifecycle Support

We provide ongoing support throughout the capability lifecycle, simplifying complexity and maximizing operational effectiveness.
